

REDEFINING STUDENT INSURANCE

Innovative Technology + Unmatched Expertise + Guidance You Can Trust

We LOVE navigating student insurance. No, really, we do. We know it may not be fun for you, but for us, it's a way of life. And by the way, we are really good at it.

With more than 60 years of collective experience in the student insurance industry, our team is committed to guiding you through the ever-changing landscape. Consider our team as an extension of your team – we're all wearing the same uniform; your success is our success.

Our goals are so much more than just finding you a plan – we run a full diagnostic checkup of your program, identify areas for enhancement and suggest and implement solutions. Once we determine the right course of action for you, we take the plan to market. We leverage our years of building relationships, paired with our unparalleled negotiation expertise, to match you with a carrier that best achieves your goals – all without breaking a sweat.

Oh, and did we mention we also created an innovative, transparent system that modernizes all aspects of student insurance administration? Well we did, and if you ask us, it's pretty awesome.
